CARLOS HERNANDEZ

Senior Full Stack Developer | Senior Full-Stack Software Engineer — React (React.js), TypeScript, Node.js & GraphQL

Montreal, QC, Canada (EST / UTC-5) | Authorized to Work in Canada | (514) 692-2706 | chernandezweb@gmail.com
Portfolio: chernandezweb.github.io/portfolio-developer | LinkedIn: linkedin.com/in/carlos-hernandez-7a0177133 | GitHub: github.com/chernandezweb | Trilingual: English, French, Spanish

PROFESSIONAL SUMMARY

Senior Full Stack Developer and Software Engineer with **8+ years of web development experience** architecting, building, and scaling enterprise web applications, cloud services, and SaaS platforms. Over 7 years at Intact Insurance delivering mission-critical applications across learning platforms, administrative CMS, project workflows, and internal tooling using **React (React.js), TypeScript, JavaScript (ES6+), Node.js, GraphQL/Apollo, RESTful APIs, Sequelize, and Azure MySQL** serving approximately 31,000 active learners, brokers, and staff. Strong background in front-end engineering, UI component libraries, and design systems (**Material Design / Material UI, Ant Design, Angular, HTML5, CSS3/SASS**), automated testing, Microsoft Azure cloud services, Terraform, and CI/CD pipelines across 86 DEV/PROD repositories. Trilingual (English, French, Spanish).

TECHNICAL SKILLS

Languages: TypeScript, JavaScript (ES6+ / ESNext), SQL, HTML5, CSS3, SASS / SCSS, Python, PHP, C#, Bash

Front-End & UI Libraries: React (React.js / ReactJS), React Hooks, Context API, Material Design / Material UI (MUI), Ant Design (AntD), Angular, Styled Components, Bootstrap, Responsive Design, Single Page Applications (SPA), Web Performance, WCAG Accessibility (a11y)

Back-End & APIs: Node.js (Node / NodeJS), Express.js, GraphQL (Apollo Server/Client, Schema & Resolvers), REST APIs (RESTful APIs), Sequelize ORM, Microservices Architecture, Authentication & Security (SAML SSO, JWT, OAuth 2.0, RBAC, WAF)

Databases & Cloud DevOps: Azure MySQL Flexible Server, MySQL, Relational Database Schema Design, Microsoft Azure, Terraform, Docker, CI/CD Pipelines (GitHub Actions), Apache, PM2, Azure Front Door, Git, Linux, Webpack, Vite

Testing & Practices: Unit & Integration Testing (Jest, React Testing Library), End-to-End (E2E) Testing, Automated Security Scanning, Code Reviews, Agile / Scrum, Jira

WORK EXPERIENCE

Senior Full Stack Developer (Senior Full-Stack Software Engineer) — Intact Insurance (Intact Financial Corporation), Montreal, QC — July 2019 – Present

- Architected and scaled **iCité**, an enterprise learning platform and administration ecosystem (**React, Node.js, GraphQL/Apollo, REST APIs, Sequelize ORM, Azure MySQL Flexible Server, SAML SSO, JWT**) documented as serving **~31,000 active learners with 136 published learning paths, ~1.5M module enrollments, and ~125,000 progress records** (engineered for 1,000+ concurrent users).
- Engineered the **iCité Administration Portal & Custom CMS**, delivering tools for course authoring, SCORM-based training, cohort management, automated certificates, assessments, role-based access control (RBAC), and real-time operational reporting.
- Developed **Planiflow** and operational workflow applications (**React, Material UI, Node.js APIs, Sequelize, MySQL, SSO**) centralizing request/task management, milestones, team permissions, time tracking, reporting dashboards, and secure file intake workflows.
- Contributed to cloud infrastructure, security, and automated delivery: **Microsoft Azure, Terraform, Azure MySQL, Apache, PM2, Azure Front Door & WAF, Application Gateway**, and shared GitHub Actions CI/CD workflows supporting **86 DEV/PROD repositories**.

Front-End & Mobile Web Developer — Version 10, Montreal, QC — July 2018 – July 2019

- Engineered and launched the cross-platform web and mobile front-end application for **Léger Opinion (LÉO)** across Web, iOS, and Android using **Angular, TypeScript, JavaScript (ES6+), HTML5, CSS3/SASS, and RESTful APIs**, serving tens of thousands of active users across Canada.
- Developed high-traffic, CMS-driven responsive front-end web interfaces (**HTML5, CSS3/SASS, JavaScript ES6+, REST API integration**) for major national media and enterprise clients including **Radio-Canada, Télé-Québec, ICI Explora, ICI ARTV, and Léger Marketing**.
- Built real-time interactive digital front-end applications and UI integrations for the **Granby Zoo** and **LÜ / Radio-Canada** using C#, TypeScript, modern component architectures, and Git.

Front-End Web Developer — Mirum Digital Agency (WPP), Montreal, QC — March 2017 – June 2018

- Developed responsive front-end web applications, reusable UI components, and front-end REST API integrations using **JavaScript (ES6+), HTML5, CSS3, and SASS/SCSS** within a fast-paced Agile / Scrum agency engineering team.
- Delivered high-availability production front-end web features, cross-browser compatible layouts, and WCAG-accessible interfaces for major enterprise clients including **TD Canada Trust, Adidas, Dairy Farmers of Canada, and UGO**.

EDUCATION

Diploma of College Studies (DEC) in Computer Science & Software Engineering (Web & Multimedia Development) — Cégep Édouard-Montpetit, Montreal, QC — 2014 – 2017
