CARLOS HERNANDEZ

Full Stack Developer

Montreal, QC, Canada | (514) 692-2706 | chernandezweb@gmail.com
Portfolio: https://chernandezweb.github.io/portfolio-developer/ | Languages: French, English, Spanish

PROFESSIONAL SUMMARY

Full Stack Developer with 8+ years of experience designing, building, and maintaining high-availability web applications, enterprise training platforms, and internal business tools used daily by hundreds of underwriters and brokers. Specialized in modern JavaScript ecosystems including React.js, TypeScript, Node.js, and GraphQL. Proven track record of owning end-to-end delivery from architecture to user interface across insurance and digital agency environments. Trilingual collaborator (French, English, Spanish) focused on clean code, problem-solving, and high-impact user experiences.

TECHNICAL SKILLS

Programming Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3/SCSS, SQL, Python, PHP

Front-End Development: React.js, Angular, Ionic (Hybrid Mobile iOS/Android), Twig, jQuery, Responsive Web Design

Back-End, APIs & CMS: Node.js, GraphQL, RESTful APIs, Custom Content Management Systems (CMS)

Databases, Tools & Engines: MySQL, Git, Unity Game Engine, Adobe Creative Suite

Core Competencies: Full-Stack Architecture, Cross-Functional Teamwork, Problem-Solving, Adaptability, Trilingual Communication

WORK EXPERIENCE

Full Stack Developer — Intact Insurance, Montreal, QC — July 2019 – Present

- Architected, developed, and maintain **ICITÉ** from the ground up, an enterprise online training platform (**Node.js, React.js, GraphQL**) actively used every day by hundreds of brokers, underwriters, and internal employees across Intact's network.
- Engineered three core functional modules for the ICITÉ ecosystem: an interactive Learner Platform (LMS), an Administration Portal (managing registrations, cohorts, permissions, and reporting), and a custom Content Management System (CMS) built with **React.js and Node.js**.
- Developed and maintain a suite of mission-critical internal web applications and workflow tools (**React.js, Node.js, TypeScript**) relied upon daily by hundreds of underwriters to automate and execute specialized operational tasks.
- Collaborated closely with stakeholders and product teams to translate complex insurance workflows into intuitive, high-reliability full-stack solutions.

Front-End Web Developer — Version 10, Montreal, QC — July 2018 – July 2019

- Developed responsive front-end web applications integrated with an internal custom CMS and PHP Twig framework for high-profile media and enterprise clients including **Radio-Canada, Télé-Québec, ARTV, Explora, Vrak TV, Canal Vie, and Léger Marketing**.
- Built and delivered the cross-platform hybrid application for **Léger Opinion (LÉO)** compatible across Web, native Android, and iOS using **Ionic and Angular**.
- Developed interactive digital experiences for the **Granby Zoo** (Lions Zone) and gymnasium projection games (**LÜ / Radio-Canada**) using the **Unity** game engine.

Catalog Designer & Web Integrator — Orly Cuisine, Montreal, QC — May 2017 – August 2017

- Developed and launched two showcase websites to present two distinct product brands sold by the company.
- Designed layouts and integrated product content for the company's commercial printed catalog.

Front-End Developer Intern — Mirum Digital Agency, Montreal, QC — March 2017 – May 2017

- Contributed to front-end web development and UI integration using **HTML, CSS, JavaScript, and PHP Twig** within an agency team environment.
- Delivered web project updates and digital assets for major national clients including **Dairy Farmers of Canada, Adidas, TD Canada Trust, and UGO**.

EDUCATION

DEC in Multimedia Integration (Techniques d'intégration multimédia) — Cégep Édouard-Montpetit — Sept 2014 – Dec 2017

High School Diploma — École secondaire De Mortagne — Sept 2009 – June 2014
