CARLOS HERNANDEZ

Senior Full Stack Developer — React.js, TypeScript, Node.js & GraphQL

Montreal, QC, Canada (EST / UTC-5) | (514) 692-2706 | chernandezweb@gmail.com
Portfolio: https://chernandezweb.github.io/portfolio-developer/ | GitHub: github.com/chernandezweb | Languages: English, French, Spanish

PROFESSIONAL SUMMARY

Senior Full Stack Developer with 8+ years of experience architecting, building, and scaling production web applications, enterprise SaaS platforms, and internal workflow systems. Over 7 years at Intact Insurance leading end-to-end engineering of mission-critical applications (**React.js, TypeScript, Node.js, GraphQL**) actively relied upon every day by 500+ underwriters, brokers, and internal employees. Proven track record of owning system architecture, API design, database modeling, and responsive front-end interfaces in distributed Agile environments. Trilingual (English, French, Spanish).

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, SQL, HTML / CSS, Python, PHP

Front-End: React.js, Next.js, Angular

Back-End & APIs: Node.js, Express.js, GraphQL, REST APIs, Custom CMS Architecture

Databases & Tools: PostgreSQL, MySQL, MongoDB, Git, Docker, CI/CD (GitHub Actions), Agile / Scrum

WORK EXPERIENCE

Senior Full Stack Developer — Intact Insurance (Intact Financial Corporation), Montreal, QC — July 2019 – Present

- Architected, developed, and maintain **ICITÉ** from the ground up, an enterprise Learning Management System (LMS) built with **React.js, TypeScript, Node.js, and GraphQL** serving **500+ active brokers, underwriters, and internal employees daily** across Intact's national network.
- Engineered the **ICITÉ Administration Portal & integrated Custom CMS** (**React.js, Node.js, GraphQL, MySQL**), enabling training managers to author learning paths, manage cohorts, schedule virtual classrooms, automate certificate generation, configure role-based access control (RBAC), and export real-time analytics reports—reducing manual administration overhead by 70%.
- Designed and maintain a centralized suite of mission-critical **Underwriter Workflow & Web Tools** (**React.js, Node.js, TypeScript, REST/GraphQL APIs**) used daily by hundreds of underwriters to automate complex policy calculations, risk assessments, and operational workflows.
- Owned full-stack delivery from database schema design and GraphQL API architecture to reusable React/TypeScript component libraries, code reviews, CI/CD deployment pipelines, and direct stakeholder collaboration.

Full Stack & Mobile Web Developer — Version 10, Montreal, QC — July 2018 – July 2019

- Engineered and launched the cross-platform web and mobile application for **Léger Opinion (LÉO)** across Web, iOS, and Android using **Angular, TypeScript, and REST APIs**, serving tens of thousands of active survey panelists across Canada.
- Developed high-traffic, CMS-driven web applications and interactive digital platforms for major national media and enterprise clients including **Radio-Canada, Télé-Québec, ICI Explora, ICI ARTV, and Léger Marketing** (*Indice du bonheur*).
- Built real-time interactive digital applications for the **Granby Zoo** and **LÜ / Radio-Canada** using C# and modern component architectures.

Front-End Web Developer — Mirum Digital Agency (WPP), Montreal, QC — March 2017 – August 2017

- Developed responsive front-end web interfaces and reusable UI components using **JavaScript, HTML, CSS, and PHP** within an Agile agency engineering team.
- Delivered production web features and digital campaigns for enterprise clients including **TD Canada Trust, Adidas, Dairy Farmers of Canada, and UGO**.

EDUCATION

Diploma of College Studies (DEC) — Computer Science & Multimedia Web Development — Cégep Édouard-Montpetit — 2014 – 2017
