CARLOS HERNANDEZ

Senior Full Stack Developer — React.js, TypeScript, Node.js & GraphQL

Montreal, QC, Canada (EST / UTC-5) | Remote: Canada & Americas (EST / Colombia) | (514) 692-2706 | chernandezweb@gmail.com
Portfolio: https://chernandezweb.github.io/portfolio-developer/ | GitHub: github.com/chernandezweb | Trilingual: English, French, Spanish

PROFESSIONAL SUMMARY

Senior Full Stack Developer with 8+ years of experience architecting, scaling, and maintaining high-performance production web applications, enterprise SaaS platforms, and internal workflow systems. Over 7 years at Intact Insurance leading end-to-end engineering of mission-critical platforms (**React.js, TypeScript, Node.js, GraphQL**) relied upon daily by 500+ underwriters, brokers, and staff. Proven track record in system architecture, API design, database modeling, and scalable component libraries. Trilingual (English, French, Spanish) and thriving in remote, distributed Agile teams.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, SQL, HTML / CSS, Python, PHP

Front-End: React.js, Next.js, TypeScript, Angular, Responsive UI Architecture, Web Performance

Back-End & APIs: Node.js, GraphQL (Schema & Resolvers), REST APIs, Custom CMS Architecture, Webhooks

Databases & Tools: PostgreSQL, MySQL, MongoDB, Docker, CI/CD (GitHub Actions), Git, Agile / Scrum

WORK EXPERIENCE

Senior Full Stack Developer — Intact Insurance (Intact Financial Corporation), Montreal, QC — July 2019 – Present

- Architected, built, and scale **ICITÉ** from the ground up—an enterprise Learning Management System (LMS) and production SaaS application built with **React.js, TypeScript, Node.js, and GraphQL** serving **500+ active brokers, underwriters, and internal employees daily**.
- Engineered the **ICITÉ Administration Portal & Custom CMS** (**React.js, Node.js, GraphQL, MySQL**), reducing administrative overhead by **70%** and optimizing query latency through efficient GraphQL schema design, resolver batching, and client-side caching.
- Designed, built, and maintain a centralized suite of mission-critical **Underwriter Workflow & Web Tools** (**React.js, Node.js, TypeScript, REST/GraphQL APIs**) automating complex policy evaluations and risk calculations across national operations.
- Led full-stack engineering standards: robust TypeScript type safety, reusable component design, automated CI/CD workflows (GitHub Actions), Docker containerization, and collaborative sprint delivery.

Full Stack & Mobile Web Developer — Version 10, Montreal, QC — July 2018 – July 2019

- Engineered and launched the cross-platform web and mobile application for **Léger Opinion (LÉO)** across Web, iOS, and Android using **Angular, TypeScript, and REST APIs**, serving tens of thousands of active survey panelists across Canada.
- Developed high-traffic, CMS-driven web applications and interactive digital platforms for major national media and enterprise clients including **Radio-Canada, Télé-Québec, ICI Explora, ICI ARTV, and Léger Marketing** (*Indice du bonheur*).
- Built real-time interactive digital applications for the **Granby Zoo** and **LÜ / Radio-Canada** using C# and modern component architectures.

Front-End Web Developer — Mirum Digital Agency (WPP), Montreal, QC — March 2017 – August 2017

- Developed responsive front-end web interfaces and reusable UI components using **JavaScript, HTML, CSS, and PHP** within an Agile agency engineering team.
- Delivered production web features and digital campaigns for enterprise clients including **TD Canada Trust, Adidas, Dairy Farmers of Canada, and UGO**.

EDUCATION

Diploma of College Studies (DEC) — Computer Science & Multimedia Web Development — Cégep Édouard-Montpetit — 2014 – 2017
